## A Message from our President

Guten Tag Freunde und Kollegen, (Good day friends and fellow members),

Hopefully, this newsletter finds you all well, warm and comfortable. It seems as though the long cold days of winter are upon us and is not leaving anytime soon. If you're looking for something to do, and in the mood to venture out of your home, why not come to the club and spend time with friends? Besides Saturdays when we're typically closed, there's always something going on in and around our organization. It could be playing Cornhole on Monday evenings, taking adult German language lessons (all different levels) on Tuesdays, Wednesdays, or Thursdays, joining the Singers on Wednesdays, learning Schuhplattler (traditional German folk dancing) with the Enzian Volkstanzgruppe on Thursdays, or youth German language lessons as part of our Deutsche Schule on Sundays.

We ended 2024 and started 2025 on Tuesday, December 31st with a wonderful daytime New Year's Eve event, "Ring in the New Year with Germany", something new to us but an event enjoyed and praised by all who attended. Thank you, Teresa Vikari and all the volunteers who brought it all together and made it happen. On January 1st, Hans Nafzinger led a group of approximately 18 hikers, young and old, on a traditional New Year's Day hike at French Creek State Park. Nice weather as well as tasty food and beverages were shared by all. The Wandervogel, our hiking group, is celebrating 52 years of hiking tradition.

In closing, I'd just like to remind you all of a few important upcoming organizational events. Please come out and support OUR organization, YOUR club. Join a group or committee or just come out and attend "events" ... PLURAL! Our organization is not just about Oktoberfest and the Bauernstube, it's about heritage, tradition and Kameradschaft (Comradery). Upcoming events include:

Fasching on Saturday, February 22<sup>nd</sup>, followed by our 172<sup>nd</sup> Stiftungsfest on Saturday, March 15<sup>th</sup>, and then our Founders' Day Fruhschoppen on Monday, March 17<sup>th</sup>, and finally the Starkbierfest on Saturday, March 22<sup>nd</sup>.

To stay current, please read your newsletter, check out the club website ([delawaresaengerbund.org](http://delawaresaengerbund.org)), become a subscriber to both the DSB and Bauernstube Facebook pages and make sure Keith Farmer (Communications' Secretary) has your email address in order to share the most up to date organizational information via email blasts.

## **1st Vice President**

The House committee continues to review our costs for each item and some price changes will be forthcoming. Expect new prices starting in January and possibly into February. Thanks in advance for your understanding.

Friday and Sunday meals continue to be offered by Desiree when there are no other events happening. She continues to get some much-needed help, but more volunteers help to spread the work out. Thank you to everyone that came out to support the EVTG dinner and Den's Rib Night. Both dinners were well attended.

Jumping a few months ahead, our 3rd Starkbierfest will take place March 22nd. Details will be in next month's Newsletter. We have a few changes in the works so keep in touch!

## **Garden Committee**

The Garden Committee will be having a shortened workday on February 8th from 9-11 a.m. and then taking our rescheduled field trip to the UD Botanical Gardens right after. All are welcome to join us! Contact Julia for details.

Next organizational meeting- Monday, February 17th, 7:30 p.m. in the Bauernstube.

## Journey to the Giant Planets

Join us Friday, February 28, 2025, at the Mather Planetarium

750 S. Church St.  
West Chester, PA 19383

We suggest either individual travel or carpooling.

Program starts at 7:00 p.m.  
Donations: \$5 per person

Galileo saw the moons of Jupiter for the first time in 1610. Christiaan Huygens discovered the rings of Saturn and its largest moon Titan in 1655. Since then, they have been objects of endless fascination. In this planetarium show, you will explore our solar system's two largest planets and see how NASA and the European Space Agency plan to look for signs of life on their icy moons. There will be time for questions at the end of the presentation. You might want to ask him about the James Webb Telescope.

Marc Gagné is an astrophysicist who works on magnetic massive stars. He was the first to discover the strong magnetic field on these O-type stars. He received his Ph.D. from the University of Georgia in 1994. After postdoctoral work at the University of Colorado and Rutgers, Marc joined West Chester University in 1999. Dr Gagné teaches astronomy, planetary geoscience, remote sensing, and galaxies and cosmology.

The map indicates the Schucker Science Center in which the Mather Planetarium is housed. Look for a large lighted sign for Mather Planetarium after you cross Rosedale Avenue.
